Evergreen Resistance and 50501 Movement Demands

Our coalition is urgently calling on Washington State lawmakers to take decisive action to protect civil rights. We urge them to stand firm in safeguarding constitutional protections for reproductive freedom, bodily autonomy, and to expand legal resources to shield residents from potential federal overreach. Additionally, we emphasize the critical need for robust community education on the impact of federal policies, greater public engagement, and visible support for state representatives advocating for grassroots initiatives.

Now, more than ever, it is time for us to come together as one unified force. We must rise across our communities to support democracy, human rights, and demand a higher quality of life for all.

Our coalition also calls on every community in Washington to join us in this movement. United, we are an undeniable force. Everyone can help by reaching out to your representatives, participating in protests, activating in your community, or simply talking to your neighbors to spread the word—these are not ordinary times, and we must act with urgency and purpose.

Our goal is clear: to unite Washingtonians—and all Americans—against those who seek to dismantle our democracy. This includes the Trump administration, those who work to undermine our freedoms, and anyone who tries to divide us along our differences. What truly makes America great is the strength and unity of the People, and it is through solidarity that we will protect the ideals that bind us.

Together, we can make a difference. By empowering our communities, supporting grassroots leaders, and championing the causes that matter most to the People, we will pave the way for a brighter, more just future.
